

**JOB DESCRIPTION
POST – Engineer**

POST TITLE: Engineer

RESPONSIBLE TO: Senior Engineer and Director

JOB SUMMARY:

To provide a competent structural engineering service to BdR's clients and to ensure that assigned projects are carried out on time, within agreed budgets and to the satisfaction of the Clients and Directors.

MAIN ACTIVITIES:

Main Duties

- Establish design philosophy and structural schemes for small to medium sized jobs and develop these with full engineering structural calculations
- Preparation of fee proposals
- Manage the detail design of structural engineering schemes
- Manage own project resources/costs
- Monitor and be aware of own performance (time/cost)
- Ensure the relevant statutory and design standards are met for all projects
- Contribute to the Structural Team of the Company

Other Responsibilities

- Prepare work briefs for others including CAD technicians

REQUIRED KNOWLEDGE AND SKILLS

- 2-3 years experience
- Industry design standards/guides, best practices and specifications for structural engineering schemes
- Statutory regulations
- Construction techniques
- Good communication skills
- Project management of own schemes
- Liaising with clients and other members of staff

Applicants must hold a full valid driving licence

We are an equal opportunities employer. We strive to employ, motivate, develop and reward employees regardless of gender or marital status; race, colour, national or ethnic origin; religion or religious belief; disability; sexual orientation or age.

Our Equal Opportunities policy applies to recruitment and selection, terms and conditions of employment including, pay, promotion, training, transfer and every other aspect of employment. We aim to ensure that individuals are selected, promoted and treated according to their individual abilities and merits.
